Portrait Planning Worksheet

Name: _____ Family Members: _____
Address: _____
Phone: _____ Email: _____

When was the last time you had a professional portrait made?

What did you do with the portraits?

What did you like or dislike about them?

What would you do different?

What is the primary reason having a portrait created now?

How many people will be in your family portrait? Please list everyone's name and the kid's ages.

How many portraits do you want? For example, do you need a portrait of the entire family, another with grandparents & grandkids, and a third of just the grandkids.

Do you want formal or casual portraits?

Do you envision portraits with people's faces looking at camera, looking at baby, looking off camera, looking at each other. Please explain your vision.

Do you want a portrait that tells the story of living in Hawaii, or do you want portraits that focus more on the people less of the environment.

If you could go anywhere you wanted to make the portrait where would you go?

Will you need duplicates of any images as gifts for family members?

Do you know where in your home the portraits will be displayed? Would the space complement a vertical or horizontal portrait?

Are you familiar with coffee table books, paintings, collages, canvas portraits, metallic, and Kodak Prints?

Do you have an established budget?

Have you thought about what to wear?
